

Candidate: Jason Burgoyne

I believe that I have demonstrated myself as possessing values of inclusiveness, respect, integrity, high ethical standards, and community building in my career (resume) and in my dealings with Boxing Ontario at large. I have always been about what is best for the athletes, whether it is with the female development, athlete development, official or coaching development. In the end it all helps our athletes and that is what we are all here for.

I have experience with fund development in both my career as a coach and in the military as an account manager for a combat unit. We had intimate knowledge of govt protocols and financial responsibilities. I have applied for and gotten grants (and helped others do the same) through the boxing club and have experience with garnering funds through donations by securing sponsorships for local events.

I believe in my positions in the military, I have displayed a strong background in government relations and policy development and in overall governance and organizational management. It was my primary job responsibility to do these things as a leader in our government's military as well as having a strong background in understanding legal policy and responsibility.

I am a retired, disabled veteran (whose disability will in no way hamper my ability to fill my organizational requirements) who possesses all the necessary skills to fill the position in question and would be honoured to be considered.

Qualified Govt Administrative account manager for fund development (Section 32/34)
Qualified Green Procurement
Qualified Military Instructor
Qualified in government document and policy (CAF PLQ Qual)
Qualified in leadership and organizational management (CAF PLQ, Commander's course)
Qualified Diversity trained through Military

Thank you for your consideration.

Jason Burgoyne
